

SERIES 4500

TILT-TURN WINDOW SYSTEMS

distinguish your home - tilt turn windows are the standard by which all other designs are measured. whether you want a dramatic wall of windows or a cozy retreat from the outside world, our versatile tilt-turn helps you complete the home of your dreams.

- Sturdy German engineered system manufactured in Canada
- Fusion welded vinyl chambers and Shadow grooved welds for strong and seamless corners
- Dual gasket compression seals
- Full perimeter stainless steel multi-point locking system is operated with a single handle
- Exterior screen with pull tabs for easy removal
- Tilt-in feature draws air in through the top of the window allowing for proper air circulation. Turn-in provides full access to the outside of the window for cleaning or as an egress passage

tilt-turn window

tilt position provides draft-free ventilation and worry free rain protection and the turn position swings in like a door allowing the full glass area to open
